Runway Threshold Light
H-Series
Type: L-850D
Honeywell

Runway Threshold Light

Type: L-850D

Compliant with:

FAA Advisory Circular AC150/5345-46B, Class 2, Style 3.

USE

The Honeywell Runway Threshold Lights are used to define the beginning of the runway pavement suitable for aircraft operations. The runway threshold lights are typically used with medium and high intensity approach lighting systems utilizing displaced thresholds. Prisms are non-field replaceable.

FEATURES

- Fixture rises a maximum of 0.250 inch above the surface finish.
- Light fixture is a uni-directional fixture with two (2) 48-watt halogen lamps.
- Can be used for any FAA Category I, Category II, Category III, ICAO, or Military runway threshold applications.
- Light housing is made from a one-piece aluminum casting making it lightweight (14 lb).
- Mounts on a standard size L-868B base whose top surface is 0.750 inch below the surface finish.
